

## **Graduate Medical Education Anonymous Website for House Officers**

The UCSD Office of Graduate Medical Education (OGME) is pleased to offer an anonymous website for house officers to provide suggestions, feedback, or to make us aware of your questions or concerns.

We are all interested in your welfare and want your training experience to be a positive one. If you have an issue you feel needs to be addressed, you should first approach your program director or chief residents. Many times your program leadership is in the best position to immediately address the concern. If for any reason you feel uncomfortable approaching your program director or chiefs, the next level in the chain of command is your division chief or department chair. Your departmental leadership takes your education seriously and wants to create an environment that is supportive.

If the circumstances are such that you feel more comfortable going outside of your department then I want you to use this website or talk to us in the OGME. Your comments will be kept confidential so please consider providing contact information so more details can be obtained and we can provide you with follow up information. However, we have set up this link to be completely anonymous if you wish. We cannot trace this back to you unless you choose to provide us with contact information.

You may access the link on the left hand side of the OGME web page:
