# Your summary of benefits

## Notes:

- When using non-network pharmacy; members are responsible for in-network pharmacy copay plus 50% of the remaining prescription drug maximum allowed amount & costs in excess of the prescription drug maximum allowed amount. Members will pay upfront and submit a claim form.
- Preferred Generic Program: If a member requests a brand name drug when a generic drug version exists, the member pays the generic drug copay plus the difference in cost between the prescription drug maximum allowed amount for the generic drug and the brand name drug dispensed, but not more than 50% of our average cost of that type of prescription drug. The Preferred Generic Program does not apply when the physician has specified "dispense as written" (DAW) or when it has been determined that the brand name drug is medically necessary for the member. In such case, the applicable copay for the dispensed drug will apply.
- Supply limits for certain drugs may be different, go to Anthem website or call customer service.
- Certain drugs require pre-authorization approval to obtain coverage.
