UC San Diego ACTRI DISC Advanced Workshop Series

HOW TO GET FUNDED IN D&I SCIENCE

Join us for a 2-day virtual workshop on "How to Get Funded in Dissemination and Implementation Science" on October 25th and 26th.

Speakers include researchers and representatives from the National Institutes of Health, Veterans Affairs, PCORI, William T. Grant Foundation, UC San Diego, Washington University in St. Louis, Boston College School of Social Work, Brown University, Wake Forest School of Medicine and more.

Workshop Aims
- Learn about current funding opportunities for D&I research directly from public, private, national and international funding agencies
- Build knowledge and skills for D&I proposal writing and development from a diverse panel of D&I investigators and community-based researchers
- Engage with community partners about meaningful collaboration throughout an implementation project life cycle
- Gain access to resources to create a diversified and sustainable D&I research portfolio

For more information: email disc@health.ucsd.edu

Registration closes October 22nd!

Trainees, community partners, and residents of LMICs = $10
UCSD/ACTRI partners = $40
External = $50

Click to Register Now: Purchase tickets on Eventbrite!
SESSIOI N DESCRIPTIONS

Day 1

10 Key Ingredients to D&I Proposals
- Define and discuss critical components to include when writing a D&I grant proposal

How to Diversify Your D&I Portfolio
- Tips and tricks on how to create a unique and well-rounded portfolio

How to Get Funded in D&I: National Institutes of Health Panel
- Key elements to support successful D&I research applications to NIH

How to Get Funded in D&I: Veteran Affairs Panel
- Key elements to support successful D&I research applications to VA

How to Get Funded in D&I: Patient-Centered Outcomes Research Institute and Foundations Panel
- Key elements to support successful D&I research applications to PCORI and Foundations

Day 2

Launching a D&I Research Portfolio
- Tips for creating and showcasing a broad, diversified D&I research portfolio

Engaging the Community in the D&I Proposal Lifecycle
- How to engage with the community in D&I science and the proposal crafting process

International Investigator Panel: Synthesizing Learnings
- How to apply for D&I funding and perform D&I research in the international landscape

NIH Science of Implementation in Health and Healthcare Study Section
- A broad overview of the new D&I Study Section at the National Institutes of Health

Synthesizing Learnings: Practical Application & Next Steps
- An overview of practical tips, resources and skills learned throughout the two day workshop
# WORKSHOP AGENDA

## Day 1 (8:30am - 3:45pm PDT)

</table>
Dr. Lauren Brookman-Frazee is a Professor in the UC San Diego Department of Psychiatry, Director of Education and Training for the UC San Diego ACTRI Dissemination and Implementation Science Center, Associate Director of the Child and Adolescent Services Research Center, and Co-Director of the San Diego State University (SDSU)/UC San Diego (UCSD) Joint Doctoral Program in Clinical Psychology.

Dr. Nicole Stadnick is an Assistant Professor in the Department of Psychiatry at UC San Diego, the Director of Dissemination and Evaluation of the UC San Diego ACTRI Dissemination and Implementation Science Center, faculty in the SDSU/UCSD Joint Doctoral Program in Clinical Psychology, and an Investigator at the Child and Adolescent Services Research Center.

Dr. Gregory Aarons is a Clinical and Organizational Psychologist, Professor in the Department of Psychiatry at UC San Diego, a faculty member in the UCSD/SDSU Joint Doctoral Program in Clinical Psychology, Co-Director of the UC San Diego ACTRI Dissemination and Implementation Science Center, and Director of the Child and Adolescent Services Research Center (CASRC).

Dr. Borsika Rabin is an Associate Professor at the UC San Diego Herbert Wertheim School of Public Health and Human Longevity Science, the Co-Director of the UC San Diego ACTRI Dissemination and Implementation Science Center.

Ms. Clare Viglione, MPH, RD is the DISC Manager and an Assistant Implementation Science Consultant. Clare also serves as the Implementation Facilitator and Evaluator for the San Diego Center for AIDS Research Implementation Science Hub.

Dr. Paula Aristizabal is a Hematologist-Oncologist at Rady Children’s Hospital-San Diego and an Associate Professor of Pediatrics in the Division of Pediatric Hematology/Oncology at UC San Diego. She is the Division’s Quality Improvement Lead and chair of the Quality Improvement Committee.
Dr. Elva Arredondo is Professor of Psychology at San Diego State University and the Co-Lead of the Intervention Methods Group at HealthLINK. HealthLINK supports researchers seeking to develop new or adapt existing evidence-based interventions for different populations and settings.

Dr. Theresa Betancourt is the Salem Professor in Global Practice at the Boston College School of Social Work and Director of the Research Program on Children and Adversity. Her research interests include the developmental and psychosocial consequences of concentrated adversity on mental health.

Dr. Nicholas Bowersox is a Clinical Associate Professor at the University of Michigan's Department of Psychiatry. He is the Director at QUERI’s Center for Evaluation and Implementation Resources, an Investigator at the VA’s Serious Mental Illness Treatment Resource and Evaluation Center, and a staff psychologist at Ann Arbor VA Psychosocial Rehabilitation and Recovery.

Dr. Ross Brownson is the Lipstein Distinguished Professor and Director of the Prevention Research Center at Washington University in Saint Louis Brown School and School of Medicine. He also directs the CDC-supported Prevention Research Center and co-directs the Washington University Implementation Science Center for Cancer Control (supported by the NCI).

Dr. Erika Crable is a postdoctoral fellow in the UC San Diego Department of Psychiatry and the Child and Adolescent Services Research Center. Dr. Crable’s work is centered around health policy and implementation science.

Ms. Margaret Crane is a clinical psychology PhD candidate at Temple University and a NIH NRSA/F31 fellow. She also is a therapist at the Temple University Child and Adolescent Anxiety Disorders Clinic, and a clinical extern at the Children’s Hospital of Philadelphia.

Speakers listed in alphabetical order
Dr. Kristie Foley is Chair of the Department of Implementation Science, Associate Director for Population Sciences at the Wake Forest Baptist Comprehensive Center, and Associate Dean for Research at Wake Forest School of Medicine. Her work focuses on how to implement and sustain best and promising practices in primary and oncology care to reduce cancer disparities.

Dr. Rani Elwy is Founding Director of the Implementation Science Core in the Department of Psychiatry and Human Behavior. She also serves as Co-Director for Implementation Science in Brown’s Advance Clinical and Translational Center, and as an implementation scientist in the Biobehavioral Sciences Core of the Providence/Boston Center for AIDS Research.

Dr. Bridget Gaglio is a Senior Program Officer for the Clinical Effectiveness and Decision Science program at the Patient-Centered Outcomes Research Institute. Dr. Gaglio facilitates research initiatives aimed at improving communication and dissemination of evidence-based information among patients and their healthcare providers.

Dr. Lori Ducharme is a Program Official in the Services Research Branch at the National Institute on Drug Abuse, NIH. She oversees a portfolio of research and training grants applying health services research and implementation science to improve the quality of addiction treatment services.

Dr. Kristie Foley is Chair of the Department of Implementation Science, Associate Director for Population Sciences at the Wake Forest Baptist Comprehensive Center, and Associate Dean for Research at Wake Forest School of Medicine. Her work focuses on how to implement and sustain best and promising practices in primary and oncology care to reduce cancer disparities.

Dr. Rani Elwy is Founding Director of the Implementation Science Core in the Department of Psychiatry and Human Behavior. She also serves as Co-Director for Implementation Science in Brown’s Advance Clinical and Translational Center, and as an implementation scientist in the Biobehavioral Sciences Core of the Providence/Boston Center for AIDS Research.

Dr. Bridget Gaglio is a Senior Program Officer for the Clinical Effectiveness and Decision Science program at the Patient-Centered Outcomes Research Institute. Dr. Gaglio facilitates research initiatives aimed at improving communication and dissemination of evidence-based information among patients and their healthcare providers.

Dr. Maile Karris is an Associate Professor of Medicine in the Divisions of Infectious Diseases & Global Public Health and Geriatrics & Gerontology and participates in clinical and translational HIV research at the AntiViral Research Center and through the Center For AIDS Research. She also serves as the Co-Director of the CFAR Clinical Investigation Core and the Co-Investigator for NA-ACCORD at UCSD.

Dr. Amy Kilbourne is Director of the VA Quality Enhancement Research Initiative and Professor of Learning Health Sciences at the University of Michigan Medical School. Dr. Kilbourne leads the Research to Real-World (R2R) Impact Initiative for the VA Office of Research and Development.
Dr. Sarah Linke is a licensed psychologist at UC San Diego Health, an Associate Clinical Professor in the Herbert Wertheim School of Public Health and Human Longevity Science (HWSPH) and the Department of Family Medicine, and the Interim Assistant Dean for Campus Community Partnerships in the HWSPH.

Dr. Glen Mays is the Chair and a Professor in the Department of Health Systems, Management & Policy in the Colorado School of Public Health at CU Anschutz. On a national level, Dr. Mays is the Director of the Systems for Action Research program funded by the Robert Wood Johnson Foundation.

Dr. Jessica Montoya is an Assistant Professor in the Department of Psychiatry at UC San Diego and an attending psychologist at the UC San Diego Owen Clinic. The Owen Clinic provides comprehensive primary care for individuals living with HIV.

Dr. Gila Neta is an Epidemiologist and Program Director for Implementation Science in the Office of the Director in the Division of Cancer Control and Population Sciences at the National Cancer Institute. Dr. Neta serves as the NCI scientific lead for the funding announcements in Dissemination and Implementation Research in Health.

Dr. Bill Oswald is the Associate Executive Director for Research and Evaluation for the Global Action Research Center in San Diego, California. With over thirty years of experience his work has ranged from direct organizing to providing training and technical assistance to community leaders to conducting participatory research in support of community campaigns.

Dr. Keith Pezzoli is a Professor in the Department of Urban Studies and Planning at the UC San Diego. Dr. Pezzoli directs the Bioregional Center for Sustainability Science, Planning and Design.

Speakers listed in alphabetical order
Dr. Denise Pintello currently serves as the Chief of the Child and Adolescent Services Research Program and as the Chief of the Dissemination and Implementation Research Program at the National Institute of Mental Health within the National Institutes of Health.

Dr. Ulrica Von Thiele Schwarz is a Senior Researcher at Procome and a Professor in Psychology at Mälardalen University, School of Health, Care and Social welfare. Her research focus is on the design, implementation and evaluation of changes in organizations in general.

Dr. Nick Sevdalis is a Professor of Implementation Science and Patient Safety and Director of the Centre for Implementation Science at King's College London and Chief Section Editor for Frontiers in Health Services – Implementation Science. His research interests focus on evaluating delivery of complex interventions in physical and mental health hospital care pathways; and methodological development.

Dr. Sharon Straus is a Geriatrician and Clinical Epidemiologist. She is the Director of the Knowledge Translation Program and Physician-in-Chief, St. Michael’s Hospital and Professor in Department of Medicine at the University of Toronto.

Dr. Rachel Sturke currently serves as Deputy Director and Senior Scientist in the Division of International Science Policy, Planning, and Evaluation and the Center for Global Health Studies at the Fogarty International Center at NIH. In this role, she oversees a portfolio of global implementation science projects and the program evaluation portfolio for Fogarty.

Dr. Irene Su is a Professor in the Division of Reproductive Endocrinology and Infertility in the Department of Obstetrics, Gynecology and Reproductive Sciences at UC San Diego, reproductive epidemiologist and clinical researcher in oncofertility, and participant of the 2018 NCI TIDIRC training program.
Dr. Lauren Supplee has over a decade experience as a research funder. Currently she leads the William T. Grant Foundation’s initiatives on research on improving the use of research evidence and its Institutional Challenge Grants program. Prior to joining the Foundation she was Deputy Chief Operating Officer of Child Trends and before that she led a division at the Office of Planning, Research and Evaluation at the Administration for Children and Families/Department of Health and Human Services.

Dr. Wenjuan Wang is a Scientific Review Officer at the NIH Center for Scientific Review. Before joining CSR, she worked as the Deputy Director of Research for the Demographic and Health Surveys (DHS) Program at ICF in Rockville, MD.

Mr. Paul Watson MSHS, is the President and Chief Executive Officer of the Global Action Research Center in San Diego, California. Formerly Executive Director of the Training and Research Institute for Residential Youth Centers in New Haven, CT; San Diego Youth and Community Services; and Watson and Associates International.

Ms. Blanche Wright is a doctoral candidate at UCLA’s Clinical Psychology Program and currently, a Psychology Intern/Clinical Fellow at Harvard Medical School/Cambridge Health Alliance. She is a Health Policy Research Scholar through the Robert Wood Johnson Foundation and a NIMH NRSA/F31 Fellow.
