

Our mission is to provide research resources, training, and collaboration opportunities for ACTRI scientists, health care providers, and the community. ACTRI encompasses several areas:

- **The Center for Clinical Research**
- **Community Engagement**
- **Education**
- **Biomedical Informatics**
- **ACTRI Laboratories**
- **Translational Research Alliance**

ACTRI provides infrastructure and support for basic, translational and clinical research.

Resources include:

- Clinical trial support and coordination
- Community engagement consults to facilitate recruitment and enhance diversity; free access to ResearchMatch
- Training for medical students and early career investigators
- Biomedical informatics and biostatistics
- Biorepository services
- Pilot project grants
