The Harrington Discovery Institute is an international initiative that helps translate scientific discoveries into medicines that benefit society. Their programs address a range of disease areas with an emphasis on areas of high unmet need. Through the funding and expertise they provide, they help bridge critical gaps that exist within academic drug development. In this session, the speakers will share information about Harrington Discovery Institute’s acceleration and funding programs.

Speakers:

Julianne Roseman & Joe Barone

Business Development, Harrington Discovery Institute

Sponsored by:

UC Center for Accelerated Innovation &
UCLA Clinical and Translational Science Institute
