UC San Diego Health System

UC San Diego Health is dedicated to the highest quality patient-centered primary and specialty care. We are the region’s only academic medical center and have a tripartite mission of clinical, teaching and research excellence. We offer unparalleled subspecialty expertise and innovation to patients whose medical issues are beyond the scope of traditional community hospitals.

Our Mission

To foster individuality and growth in an academically rich and culturally diverse environment, emphasizing the development of excellent clinical skills, evidence-based analysis, community service to underserved populations, and preventive medicine in the context of the entire life cycle.

Why UC San Diego Family Medicine?

- An academic program with strong ties to the community
- Areas of concentration for Integrative Medicine, Sports Medicine, Procedures, and Women’s Health
- Continuity clinics are NCQA designated as Patient Centered Medical Homes

“Best of Both Worlds”
University-based and Community rotations

- Psychologists, Behavioral Health Therapists, and Pharmacy Residents work collaboratively in the continuity clinics
- Regularly scheduled sessions/outreach with St Vincent DePaul homeless clinic, UC San Diego student run free clinics and local high schools
- 8-8-8 program with a supportive family of residents
- Fourteen weeks of elective time including international opportunities from South America to Australia to the Middle East

Delivering outstanding patient care through commitment to the community, groundbreaking research and inspired teaching.
