**Hotel Reservation Deadline:** May 28, 2019

The site for the meeting is a 5-star resort situated in the midst of a classic California coastal setting, adjacent to San Diego Zoo, Sea World, and beautiful southern California beaches. The Estancia La Jolla Hotel is only 5 miles from downtown San Diego and La Jolla Beach (San Diego Convention Center). A limited number of rooms have been reserved for course participants and will be reserved as requests are received.

**Hotel Reserve Deadline:** May 28, 2019

**Hotel Rates:**

Single or Double - $255 per night

- $15 hospitality fee and $15 overnight parking fee.

**Hotel Reservation Deadline:** May 28, 2019

**Location**

The 25th Annual San Diego Heart Failure Symposium celebrates the “Silver” Anniversary of the largest heart failure meeting in the region. This year’s program is designed to pinpoint on the latest and most essential information to help you manage heart failure through a series of didactic lectures, case presentations and debates. Topics that will be covered include advanced heart failure management (risk factors such as hypertension and diabetes). Key sessions will be dedicated to the current management of sleep disorders, heart rhythm disturbances, and management of heart failure patients. The symposium also covers new measurements that have been developed to help clinicians understand the complexity of the heart failure syndrome, heart failure treatment, and heart failure management.

**Objectives**

1. Summarize current and emerging treatments for heart failure, describe new therapeutic regimens. The symposium also covers use of percutaneous mechanical support and LVAD heart transplantation as well as new treatment options for advanced heart failure.

2. Review strategies for implementing medical and device therapies that will enhance prevention and lead to improved outcomes in heart failure patients.

3. Define how specific populations including minorities, women and the elderly respond to various treatments to improve heart failure patients.

**Target Audience**

The target audience for this activity includes cardiologists, internists, primary care physicians, nurses and allied healthcare professionals.
