Hepatic Fibrosis and IBD Related Fibrosis

THURSDAY, APRIL 26, 2018
11:30 AM - 5:00PM

We have secured participation of internationally renowned experts from diverse disciplines to cover issues related to hepatic and gastrointestinal fibrosis including the underlying pathogenesis and emerging therapeutics.

Our target audience includes physicians and scientists from UCSD and the San Diego community, UCSD students, residents, fellows and faculty including translational investigators in gastroenterology and hepatology as well as basic scientists.

Deadline to register:
April 13, 2018
AGENDA

11:30 – 12:15 PM  Lunch Provided for Registered Attendees  MET courtyard

12:20 – 12:30 PM  Dr. David Brenner  Welcome  Vice Chancellor, UC San Diego Health Sciences  Dean of the School of Medicine  UCSD

12:30 – 12:50 PM  Dr. Michael Karin  “Role of Caspase-2 in NASH”  Distinguished Professor  Department of Pharmacology  UCSD

12:50 – 1:10 PM  Dr. Ariel Feldstein  “NLRP3 Inflammasome in Liver Fibrosis”  Professor of Medicine  Division Chief, Department of Pediatrics  UCSD

1:10 – 1:30 PM  Dr. Vipin Kumar  “Type I NKT Cell-Centered Immune Mechanism in Hepatic Fibrosis”  Adjunct Professor of Medicine  Laboratory of Immune Regulation  Division of Gastroenterology  UCSD, Department of Medicine

Q & A / Break

1:45 – 2:05 PM  Dr. Senad Divanovic  “Inflammatory Vigor in NAFLD Pathogenesis: A Role for Cellular Metabolic Dynamics”  Assistant Professor  Division of Immunology  Cincinnati Children’s Hospital Medical Center

1:45 – 2:05 PM  Dr. Bernd Schnabl  “Role of Microbiome in ASH and NASH Related Fibrosis”  Associate Professor in Residence  Division of Gastroenterology  UCSD, Department of Medicine

2:25 – 2:45 PM  Dr. Tatiana Kisseleva  “IL-17 and Hepatocellular Carcinoma”  Associate Adjunct Professor  Department of Surgery  UCSD

2:45 – 3:05 PM  Dr. Rohit Loomba  “Therapeutic Landscape in Fibrosis and Cirrhosis”  Professor of Medicine  Director, NAFLD Research Center  Director of Hepatology  Vice Chief, Division of Gastroenterology  UCSD

3:05 – 3:25 PM  Panel Discussion  Session Chairs: Dr. Veeral Ajmera and Dr. Tatiana Kisseleva

Coffee Break

3:40 – 4:00 PM  Dr. Florian Rieder  “Fibrosis and Strictures in Crohn’s Disease”  Associate Staff  Department of Gastroenterology, Hepatology and Nutrition  Digestive Diseases and Surgery Institute  Department of Inflammation and Immunity, Lerner Research Institute, Cleveland Clinic Foundation

4:00 – 4:20 PM  Dr. William Sandborn  “Therapeutic Update in Crohn’s Disease”  Professor of Medicine  Adjunct Professor of Surgery  Chief, Division of Gastroenterology  Director, UCSD IBD Center

4:20 – 4:30 PM  Crohn’s Disease Panel Discussion  Session Chair: Lars Eckmann

4:30 – 4:45 PM  Dr. Rohit Loomba  Crohn’s Disease Related Fibrosis and Therapies  Wrap Up
