Assistant, Associate or Full Project Scientist - Perinatal Biologist

The Department of Pathology ([http://pathology.ucsd.edu](http://pathology.ucsd.edu)) at the University of California San Diego School of Medicine UCSD is committed to academic excellence and diversity within the faculty, staff, and student body and seeks a Project Scientist.

UCSD has recently launched the Center for Perinatal Discovery, which is a collaboration primarily between the Departments of Pathology, Obstetrics, Gynecology, and Reproductive Sciences, and Pediatrics. The overarching mission of the Center is to understand the effects of maternal health on pregnancy, and the effects of pregnancy exposures and outcomes on maternal and offspring health throughout the lifespan. The candidate will be part of the Center and will have the opportunity to be involved in multiple collaborations across laboratories within the Center. The candidate is expected to be involved in both small and large collaborative projects, assist with supervising students and postdoctoral fellows, and participate in all aspects of laboratory research, including experimental design, data analysis, and manuscript and grant writing. The position will utilize stem cells, animal models, or human biospecimens and apply advanced technologies, available through the Department of Pathology and the Center for Perinatal Discovery.

Candidates must have a PhD in health related fields and ability to make original and significant contributions to a research program in a discipline relevant to stem cell, reproductive, and/or perinatal biology.

Candidates with knowledge, work experience/training, and publications in epigenomics are preferred.
