

Transplantation Science

Assistant, Associate, or Full Professor

The Department of Pathology (<http://pathology.ucsd.edu>) at the University of California San Diego is committed to academic excellence and diversity within the faculty, staff, and student body and is seeking research faculty in a discipline relevant to organ transplantation to join the new Center for Transplantation Science.

The Department is comprised of 65 faculty members and is currently ranked 14th nationally among Pathology departments in NIH funding, with active research programs in cancer biology, immunology, placental biology, microbiology, and neurobiology. The successful candidate will benefit from the highly stimulating and collaborative environment within the department and the Center. The UCSD Pathology Department is interested in candidates who have demonstrated commitment to research excellence and participation in teaching, research, service and building an equitable and diverse scholarly environment.

The Center for Transplantation Science is a new interdepartmental research program designed to foster clinical, translational, and basic science research related to transplantation. Relevant research areas including immunology, computational biology, cellular biology, vascular biology, and regenerative medicine are among the areas of focus that would be considered to fit within the interests and scope of the Center. The successful candidate will benefit from the highly stimulating and collaborative environment within the Department and the Center.

The opportunity exists for qualified individuals to have clinical effort in Laboratory and Genomic Medicine or Anatomic Pathology, particularly related to transplantation.

The successful candidates will be responsible for developing and maintaining an independent extramurally-funded and productive research program in transplantation science. It is expected that the research will have the potential for collaboration with other Departments in the School of Medicine. Additional responsibilities will include providing high-quality training and teaching within the School of Medicine.

Candidates must have an MD, MD/PhD, or equivalent degree or PhD in transplantation research relevant fields. Candidates must have a current research program in a discipline relevant to organ transplantation with current extramural funding.

Candidates with an MD or equivalent, who plan to have a clinical effort must have or be eligible for a California medical license or equivalent certification/permit as determined by the Medical Board of California.

Candidates must be board eligible/certified in Anatomic and/or Clinical Pathology or a related field at the time of start.

The appointment will be at the Assistant Professor level and will be based on the candidate's background and experience. Series will include 50% Ladder Rank / 50% In-Residence with secured extramural funding or 100% Ladder Rank.

A link to full descriptions of the series is provided for your review:

Ladder Rank Professor - see: http://www.ucop.edu/academic-personnel-programs/_files/apm/apm-220.pdf

In-Residence Professor - see: http://www.ucop.edu/academic-personnel-programs/_files/apm/apm-270.pdf

Assistant Professor (tenure-track): Applications must be submitted through the University of California San Diego's Academic Personnel RECRUIT system at: <https://apol-recruit.ucsd.edu/JPF03505>

Associate or Full Professor (tenure): Applications must be submitted through the University of California San Diego's Academic Personnel RECRUIT system at: <https://apol-recruit.ucsd.edu/JPF03506>

The posted UC Salary scales set the minimum pay at the appointment as determined by appointment type and if applicable, rank and/or step. The base pay range for this position is PhD: \$90,500 to \$240,400 or MD: \$257,000 to \$350,000. Salary is negotiated annually. Additional compensation may be available if the position includes membership in the Health Sciences Compensation Plan. UC Salary information can be found here: (<https://www.ucop.edu/academic-personnel-programs/compensation/2022-23-academic-salary-scales.html>).

As a member of the Health Sciences Compensation Plan, the appointee should be aware that there are limitations on outside professional activities, and clinical moonlighting is expressly prohibited. Additional information can be found here: https://www.ucop.edu/academic-personnel-programs/_files/apm/apm-671.pdf

The University of California, San Diego is an Equal Opportunity/Affirmative Action Employer advancing inclusive excellence.
