The Department of Pharmacology and Toxicology at the Brody School of Medicine at East Carolina University invites applications for a full-time (12-month) faculty position in Pharmacology and Toxicology at the Teaching Instructor, Research Instructor, or Assistant Professor level or higher, commensurate with qualifications and experience. Applicants for this position must have a Ph.D. in pharmacology/toxicology or a related biomedical discipline. The successful candidate must possess demonstrated excellence in teaching. Experience in instruction in general medical pharmacology and therapeutics and/or toxicology is desired but not required. Academic opportunities include teaching in medical pharmacology and toxicology, managing on-line courses of instruction in pharmaco-therapeutics, and delivering graduate and/or professional level courses in pharmacology and toxicology within the School of Medicine and/or for other units within the Division of Health Sciences and the University. In addition to outstanding leadership skills, experience using contemporary digital technology and electronic instructional resources and engagement in development of innovative courses and curricula are desired but not required. The successful application will also contribute to the development of the department through service and research. Even through the primary effort will be instruction, research collaboration with other investigators is encouraged. Applicants should forward a current curriculum vita, a summary of career objectives, teaching objectives, teaching interests and philosophy, and a list of at least three references to Dr. Jamie C. DeWitt, Associate Professor, Department of Pharmacology and Toxicology, Brody School of Medicine at East Carolina University, 600 Moye Blvd., Greenville, NC 27834.
