Future Faculty of Cardiovascular Sciences (FOCUS) Summer Institute Proudly Presents

2019 CARDIOVASCULAR SCIENCES SUMMER SEMINAR SERIES

12:00-1:00 pm
UC San Diego School of Medicine Campus
All are invited to attend this seminar series.

July 8 | Hemal Patel, PhD
Leichtag Biomedical Sciences Bldg, Rm 107
A Decade (+) of Caveolin Research: Update of the Expected and Unexpected Findings Driving Cell, Organ, and Animal Biology

July 15 | Farah Sheikh, PhD
Leichtag Biomedical Sciences Bldg, Rm 107
Breaking Down Cell-Cell Connections to Unravel Novel Pathways and Therapeutics for Arrhythmogenic Heart Disease

July 10 | Åsa Gustafsson, PhD
Skaggs Pharmacy and Pharmaceutical Sciences Bldg, Rm 1170
Novel Mechanisms of Mitochondrial Quality Control in the Heart

July 17 | Joan Heller Brown, PhD
Leichtag Biomedical Sciences Bldg, Rm 107
Cardiomyocyte CaMKII Regulation of Inflammation in Cardiac Dysfunction and Remodeling

July 12 | Andrew McCulloch, PhD
Leichtag Biomedical Sciences Bldg, Rm 107
Systems Biology of Ventricular Remodeling from Molecular Pathways to Clinical Outcomes

July 19 | Deborah Yelon, PhD
Skaggs Pharmacy and Pharmaceutical Sciences Bldg, Rm 1170
Molecular Mechanisms Regulating Cardiac Architecture in Zebrafish
