

LIMITED SUBMISSION FUNDING OPPORTUNITY

<http://som.ucsd.edu/funding-opportunities>

Sponsor:	National Institute of Health (NIH)
Participating Organization:	National Institute on Aging (NIA)
Title:	Alzheimer's Disease Core Centers (P30)
FOA Number	RFA-AG-15-001
Internal Review Deadline:	Friday, March 14, 2014
Sponsor Deadlines:	April 14, 2014 - Letter of Intent May 14, 2014 5:00 PM Local time
Nominations allowed:	One (1) per university**
Award Amount:	New Applications – up to \$1 million per year Renewal Applications – SEE AWARD BUDGET DETAILS
Duration:	May not exceed (5) years

This is a limited submission opportunity requiring internal review; please see internal review instructions page 2

Award Description: This Funding Opportunity Announcement (FOA) invites applications from qualified institutions for support of Alzheimer's Disease Core Centers (ADCCs). These centers are designed to support and conduct research on Alzheimer's disease (AD), to serve as shared research resources that will facilitate research in AD and related disorders, distinguish them from the processes of normal brain aging and mild cognitive impairment (MCI), provide a platform for training, develop novel techniques and methodologies, and translate these research findings into better diagnostic, prevention and treatment strategies.

The principal aim of the ADCCs should be to enhance the performance of innovative research on AD and related topics, including research that may lead to potential disease-modifying therapy or behavioral or other symptom treatments. Centers are requested to concentrate their attention on better defining normal aging and the transition from normal aging to mild cognitive impairment (MCI) to the earliest stages of dementia, whether AD itself or other related dementias associated with aging. Clinical and pathological information about the earliest cognitive changes is now beginning to make it possible to develop strategies to prevent the disease from developing or to slow its progression. Attention should also be paid to mixed dementias and overlapping neurodegenerative syndromes that often occur with AD, such as vascular dementia, Lewy Body disease, Frontotemporal degeneration and Parkinson's dementia, in order to better differentiate among them and to recognize commonalities. In addition, co-occurring conditions in other organ systems that may contribute to clinical dementia could be studied. See RFA for full details:
<http://grants.nih.gov/grants/guide/rfa-files/RFA-AG-15-001.html>

Eligible Individuals: (Program Director/Principal Investigator) Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the Program Director(s)/Principal Investigator(s) (PD(s)/PI(s)) is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support.

The PD/PI should be a scientific leader experienced in the field of AD and/or other neurodegenerative disease research and must be able to coordinate, integrate, and provide guidance in the establishment of programs in AD research and allied areas.

*****Only one application per institution (normally identified by having a unique DUNS number or NIH IPF number is allowed for either RFA-AG-15-002 Alzheimer's Disease Research Center (P50) or [RFA-AG-15-001 Alzheimer's Disease Core Center \(P30\)](#), but not both grant mechanisms.***

INTERNAL REVIEW INSTRUCTIONS:

Required documentation:

- **Summary Page (1 page)**
 - Complete contact information of PI including: full name and current academic title with the university, depart, phone number, email address
 - Title of this funding opportunity
 - Descriptive title of proposed research
 - Names of other key personnel (if applicable)
 - Participating institutions (if applicable)
 - **Proposal (maximum of 4 pages including references)**
Tailored to address the sponsor's goals/focus (full details online) and including:
 - Goals and a statement of the importance of the research
 - Specific aims
 - Method of procedure
 - **Biographical Sketch (maximum of 4 pages)**
 - Including other support
- **COMBINE ALL DOCUMENTS LISTED ABOVE INTO ONE PDF** and email to Limited Submission Committee at hsfunding@ucsd.edu by the date and **TIME** listed above.
- In the body of your submission email, include your full name and contact information (often accomplished by including an email signature).

UCSD will prescreen and select 1 applicant, as allowed by the sponsor, to move forward to the full application stage. **Only one application per institution (normally identified by having a unique DUNS number or NIH IPF number is allowed for either RFA-AG-15-002 Alzheimer's Disease Research Center (P50) or RFA-AG-15-001 Alzheimer's Disease Core Center (P30), but not both grant mechanisms.

If selected, PI should be prepared to complete a full application pursuant to the sponsor's guidelines which may include the following items:

- Budget
- Expanded application and proposal
- Additional reference letters

All applications for funding must also be reviewed by the Office of Contracts and Grant Administration (OCGA). Upon receiving notification of passing internal review, the selected PI(s) will also be given the contact information for the appropriate OCGA officer. Coordination of the OCGA review will be direct between the PI and their OCGA contact.
